

AMPRNet IP Coordination Germany

The German **AMPRNet** IP-Coordination is a working group which has been elected by the Community of all German Radioamateurs. It works in a kind of „**AMPRNet National IP Registry (ANIR)**“ for the german parts of the worldwide TCP/IP-network for Radio-Amateurs, also called NET-44 or AMPRNet. DL-IP-Coordination Germany is supported by regional IP-Coordinators in a kind of „**AMPRNet Regional IP Registry (ARIR)**“. In many german sub-regions these guys are the responsible persons for any questions, problems and requests from Radioamateurs out of those sub-regions concerning participation in the NET-44. **ARIRs** can manage their submitted IP-ressources independantly within the region they are responsible for.

Tasks and Services

DL-IP-Coordination Germany develops and maintains some essential Services for the German part of the AMPRNet:

- Assigning **AS-numbers** (**BGP-routing**) for the german **HAMNET** in conciliation with adjacent European Countries
- **Maintaining** of a **WHOIS-server** for the HamRadio-services for purpose of internal documentation and information
- **Assigning** of IP-networks to the **AS-numbers** in the German **HAMNET** and registering those entries in „ampr.org“
- **Assigning** of IP-addresses in the old networks and registering them in the „ampr.org“ domain
- Organizing and maintaining a german-wide concept of **regional zones** within the „ampr.org“ domain
- Maintaining 3 main DNS-servers (**DNS-Hubs**)(*Duisburg, Dresden, Nürnberg*)
- Developing and submitting software for **synchronization** and plugging regional DNS-servers to the national **DNS-hubs**
- Developing and maintaining automatic **updates** to the wordlwide DNS-servers for the domain „ampr.org“
- Developing and submitting of **publications** about technical realisation of IP-coordination in Germany
- Holding **presentations** about technical solutions for coordination of ip-networks during meetings and exhibitions
- Supporting the regional coordinators and local admins

- Planing and realization of innovative concepts
- Tight cooperation with the maintainers of the international non-profit-domain [ampr.org](http://www.de.ampr.org)
- Providing/maintaining one of the authoritative DNS-servers for the worldwide AMPR.ORG net
(*Berlin/Individual Network e.V.*)
